

PRIVACY POLICY TKEYCOIN DAO

By using the services and websites of Tkeycoin DAO <http://tkeycoin.com/>, <http://tkeycoin.io/>, <http://tkeycoin.market/>, <http://tkeycoin.group/> and all relevant sites and subdomains associated with the sites <http://tkeycoin.com/>, <http://tkeycoin.io/>, <http://tkeycoin.market/>, <http://tkeycoin.group/> (- website, site, sites, websites), You (the User) entrust us with your personal information. We (- Tkeycoin DAO) do everything for we ensure its security and at the same time provide you with the ability to manage your data.

Please read our privacy Policy carefully to know what information we collect, the purposes for which we use it, and how you can modify, export, or delete it.

Enters into force on 25 may 2018.

By using the site, you agree to the data usage rules described in this privacy policy. Tkeycoin DAO may revise this privacy policy to reflect changes in legislation, changes in information collection methods, or changes related to the use of personal data.

If significant changes are made to this privacy policy, they will be announced by posting on the website. Privacy policy is available here: <https://tkeycoin.com/doc/en/confidential.pdf>

We will ask for your consent before using your information for any purpose that is not covered by this privacy Policy.

This privacy Policy includes elements from the General data protection Regulation (GDPR), in accordance with the rules of processing personal information within the European economic area (EEA), since the Tkeycoin DAO is an international project and covers various jurisdictions.

This policy does not apply to information collected:

On offline channels or on any other website that is affiliated with us or a third party, regardless of the channel of communication. Any third party, including advertising and any content or services that link to or are available from or on the website.

If you do not agree with our Policies and practices, do not use the site. By visiting or using the Website, you agree to this privacy Policy. This policy may change from time to time. If you continue to use the site after the changes are made, it is considered as acceptance of these changes.

Juvenile Users

Our site is not intended for underage users. If you have reason to believe that we may have any data from or about a minor user, please contact us immediately at support@tkey.biz

THE COLLECTION OF INFORMATION TKEYCOIN DAO

We want you to understand what information we collect when you register and use the services of the Tkeycoin DAO websites and services.

Information you provide to us when you register:

Given that the Tkeycoin DAO platform is developed on the principles of self-government and the concepts of p2p networks, it would be prudent to provide users and businesses with a choice between using the platform in a completely anonymous or verified mode.

When you create an account on the tkeycoin website.market, you provide us with personal information that includes your contact information (email address, name and password). You can also connect a Google Authenticator account, which will be used to verify 2FA for better security.

Information that we collect when a user is authenticated:

In accordance with international regulatory standards, including "combating money laundering" (Anti-Money

Laundering / AML) , "Know your customer" (KYC) and countering the financing of terrorism (CTF), Tkeycoin DAO may require that users authenticate the identity of the user. This entails the collection of formal identification.

Information when using websites:

Through the use of the Tkeycoin DAO platform, we also track and collect usage information such as access date and time, device identification, Operating system, browser Type and IP address. This information can be obtained directly by Tkeycoin DAO or through the services of third parties. This data about the use of the services helps us to ensure that our interface is available to users on all platforms and can help during criminal investigations.

We may use cookies. Functional cookies allow us to remember the choices you make when you browse the website, as well as to provide advanced and more personalized content and features such as customizing a specific web page, remembering if we asked you to participate in an advertising campaign and for other services you request, such as watching a video or commenting on a blog. To allow you to connect to the website, our servers receive and record information about your computer, device, and browser, including your IP address, browser Type, and other software or hardware information. All these features help us to improve your visit to the website.

In some cases, when you or any other user who has access to your data and/or devices contact us via a form or by sending us an email or any other electronic means, we may access your (personal) data if you include them in the communication. This also includes third parties such as external data providers or our business partners.

For unregistered users, we do not store data that could identify the user.

Sharing features

The website may offer sharing features, links to social networks and other integrated tools. Your use of these features allows you to share information with your contacts or the public, depending on the settings you use with the object providing the sharing feature or social networks. Please read the privacy policies of the organizations providing these functions for more information about the purposes and scope of data collection and processing of such data by such organizations.

Hyperlinks and third-party sites

This website may contain links to other third party websites that may collect personal information about you, including through cookies or other technologies. If you link to another website, you will leave this website and this privacy Policy will not apply to your actions and actions on those other websites. You should consult the privacy policies of other websites as we do not control them and are not responsible for any information that has been transmitted or received by these third parties.

WHY TKEYCOIN DAO COLLECTS THIS INFORMATION

Provide and maintain our services

We use the information we collect to provide our services and to verify your identity.

We use an IP address and a unique identifier stored in your device's cookies to help us verify your identity and provide our service. Due to our legal obligations and system requirements, we cannot provide you services without such data as identification, contact information and transaction related information.

To protect our users

We use the information we collect to protect our platform, user accounts and archives. We use IP addresses and cookie data to protect against automatic abuse such as spam, phishing, and distributed denial of service (DDoS).

We analyze user behavior for early detection of suspicious behavior to prevent potential fraud and loss of funds by attackers.

To comply with legal and regulatory requirements

The privacy and security of the data you store in Tkeycoin DAO informs us of our approach to compliance with the rules, government requests and user requests. We will not disclose or provide any personal information to third party sources without our legal team's review and/or prior consent of the user.

To measure the performance of the website

We actively measure and analyze data to understand how our services are used. This review is conducted by our operating team to continuously improve the performance of our platform and solve user interface problems. We constantly monitor information about the activities of our systems and communication with users to find and quickly fix problems.

To communicate with users

We use personal information collected, such as an email address, to communicate directly with users when providing customer support or to inform you about logins, transactions and security. Without processing your personal information to confirm each message, we will not be able to respond to your requests or requests. All direct messages remain confidential and are checked for accuracy.

To enforce our terms of use and other agreements

It is very important for us and our customers that we constantly check, investigate and prevent any potentially prohibited or illegal activities that violate our terms of service. For the benefit of our entire user base, we carefully monitor compliance with our third party agreements and actively investigate violations of our published terms of use. Tkeycoin DAO reserves the right to terminate the provision of services to any user who is involved in activities that violate our terms of use.

AS TKEYCOIN DAO PROTECTS USER DATA

Tkeycoin DAO has implemented a number of security measures to ensure that your information will not be lost or changed. Our data security measures include , but are not limited to: PCI scanning (PCI DSS), multi-layer secure Socket encryption (SSL), pseudonymization, internal data access restrictions and strict control of physical access to buildings and files, protection against DDOS attacks.

Please note that it is not possible to guarantee 100% secure data transfer over the Internet or electronic storage method. Therefore, we ask you to understand the responsibility to take independent security measures to protect your personal information.

If you suspect that your personal information has been compromised, especially your account and / or password, please contact the Tkeycoin DAO customer Service team immediately via email: support@tkey.biz

CHANGE OF USER DATA

Change data: e-mail, password, google authenticator account, the user can in the personal account tkeycoin.market. To change other data provided to the system or to delete your account, please contact customer Service Tkeycoin DAO on the e-mail address: support@tkey.biz

CONTACT US

We strive to respect the freedoms and rights of all our Tkeycoin DAO users who trust our service. If you have any questions or concerns related to this privacy policy, or you wish to request data protection, please contact the customer support team of Tkeycoin DAO at the following email address: support@tkey.biz
